

**CANDIDATE FOR CITY COUNCIL MEMBER
CITY OF TWENTYNINE PALMS**

NAME: STEVE SPEAR

AGE: 52

OCCUPATION: Incumbent

Four years ago I set out to clean up our city and to simplify city regulations. We now have a modern waste collection system that provides more for less cost and clean up efforts and programs are now in place.

Regulations are constantly being simplified and made even more responsive to the citizen. Public safety has been improved with the addition of a Traffic Enforcement Officer and downtown pedestrian crosswalk improvements have been made.

However, a new challenge is upon us as the city prepares to celebrate its 19th birthday. The current General Plan calls for a future population and build out of 110,000 people. That is approximately 10 times larger than today. Is that what we want our future to be – a city of 110,000 people?

Economic growth can be had while also saving our small town charm. I believe it is time to revisit the General Plan and to decide what we really want to be in the future and develop new plans to save our open desert views through quality development while also growing the economy.
